PROFESSIONAL SUMMARY

Undergraduate at the University of Sri Jayewardenepura majoring in Computer Science, and an aspiring Software Engineer Intern skilled in Java, Spring Boot, React.js, and MySQL, with hands-on experience building scalable, secure, and full-stack web applications. Comfortable working across the stack, from designing relational database schemas to building responsive front-end interfaces, with a strong foundation in Object-Oriented Programming, Data Structures and Algorithms, and RESTful API design. Experienced in Agile-style project workflows using Git, Jira, and CI/CD pipelines, with a consistent record of delivering functional, well-tested software independently and as part of a team. Passionate about continuous learning, clean code practices, and applying modern software engineering principles to solve real-world problems, particularly within the Sri Lankan tech and education ecosystem.

TECHNICAL SKILLS

Programming Languages: Java, C, JavaScript, TypeScript, Python
Frontend Development: HTML5, CSS3, React.js, Tailwind CSS, Responsive UI Design
Backend Development: Java, Spring Boot, Spring Security, Node.js
Databases: MySQL, PostgreSQL, Spring Data JPA, Hibernate
Core Computer Science Concepts: Object-Oriented Programming, Data Structures and Algorithms, SQL and NoSQL Databases, Software Design Principles
APIs and Security: REST APIs, JWT Authentication, Role-Based Access Control (RBAC)
DevOps and Tools: Docker, Jenkins CI/CD, Git, GitHub, Postman, Jira, Maven
Testing: JUnit, Mockito, Unit and Integration Testing
Other Skills: Microservices Architecture, JavaMail/SMTP Integration, Web Hosting and Deployment

PROJECT EXPERIENCE

SkillBridge Lanka – Student Job Portal

Jan 2025 – Apr 2025

Tech Stack: React.js, Spring Boot, MySQL, Docker

- Engineered a microservices-based job portal connecting Sri Lankan students and NVQ holders with verified recruiters for part-time and entry-level jobs, supporting **500+** active job listings across multiple categories
- Built RESTful APIs using Spring Boot and integrated them with a React.js frontend, reducing page load time by **35%** through optimized API responses and lazy loading
- Implemented Spring Security, JWT authentication, and Role-Based Access Control (RBAC) across **3** distinct user roles (Student, Recruiter, and Admin), ensuring secure and role-appropriate access to platform features
- Managed persistence using Spring Data JPA, Hibernate, and MySQL across **8** normalized relational tables, ensuring data integrity and efficient querying
- Created job posting, job search, filtering, and application management features, streamlining the end-to-end hiring workflow for students and recruiters, and managed dependencies with Maven
- Wrote JUnit/Mockito test suites achieving **80%** code coverage and configured Jenkins CI/CD pipelines for automated build, test, and deployment cycles

Aswenn – Full-Stack Agriculture Marketplace

Sep 2024 – Dec 2024

Tech Stack: React.js, Spring Boot, MySQL

- Developed a full-stack monolithic platform enabling farmers across Sri Lanka to sell agricultural products directly to buyers without intermediaries, reducing dependency on middlemen
- Designed farmer profile and product management modules using Spring Boot, supporting **6** product categories including vegetables, fruits, grains, spices, and dairy
- Implemented secure authentication and authorization with Spring Security and JWT to protect farmer and buyer accounts
- Modeled and stored application data using Spring Data JPA, Hibernate, and MySQL, ensuring scalable and reliable data management
- Delivered buyer order management, product browsing, search, and farmer contact features, creating a seamless end-to-end marketplace experience

Restaurant Booking System (Java GUI)

Mar 2024 – May 2024

Tech Stack: Java, MySQL, NetBeans

- Created a table reservation system with automated email confirmations using Java and Swing (NetBeans GUI), improving reservation accuracy and reducing manual booking errors
- Applied Object-Oriented Programming (OOP) principles to design a modular, maintainable, and extensible system architecture
- Integrated JDBC and MySQL for reliable database connectivity, reservation storage, and data management

SL Paradise – Travel and Package Booking Platform

Oct 2023 – Jan 2024

Tech Stack: PHP, MySQL, HTML, CSS, JavaScript

- Developed a web platform enabling users to browse and book curated travel packages across Sri Lanka, improving accessibility to local tourism offerings
- Built an admin panel for managing users, bookings, and travel packages, enabling efficient backend administration
- Designed a simple, interactive interface with an intuitive navigation and booking workflow to improve user experience

EDUCATION

University of Sri Jayewardenepura

BSc in Physical Science (Major: Computer Science)

Sri Lanka

2022 – Present

G.C.E. Advanced Level Examination

Mathematics Stream – Successfully Completed

Sri Lanka

2021

G.C.E. Ordinary Level Examination

7 A passes, 1 B pass, 1 C pass

Sri Lanka

2017

CERTIFICATIONS AND ACHIEVEMENTS

MoraXtreme 9.0 – Algorithmic Coding Competition, Team CodeSpark, IEEE Student Branch & IEEE

Computer Society, University of Moratuwa

Oct 2024

Shuttle Master '24 – 3rd Place, Maximum Distance Water Rocket Competition, Team Meta 69, Astronomy

Club, University of Sri Jayewardenepura

2024

Python for Beginners – Online Learning Program, Centre for Open and Distance Learning (CODL), University of Moratuwa

May 2025

CSA Committee Member – Recognized at the Annual General Meeting, Computer Science Association, University of Sri Jayewardenepura

2026

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

Committee Member, Computer Science Association, University of Sri Jayewardenepura – Organized academic and technical events; assisted in planning workshops, seminars, and student development programs for undergraduate peers

School Prefect – Demonstrated leadership, discipline, and responsibility while managing student conduct and supporting school administration

LANGUAGES

Sinhala (Native) | English (Professional – English Language Course completed at KEA)
